

JEEVANDEEP SHAIKSHNIK SANSTHA, POI'S
JEEVANDEEP LAW COLLEGE, GOVELI
(AFFILIATED TO MUMBAI UNIVERSITY & APPROVED BY BAR COUNCIL OF INDIA)

Water conservation facilities available in the Institution:

1. Rain water harvesting
2. Borewell /Open well recharge
3. Construction of tanks and bunds
4. Waste water recycling
5. Maintenance of water bodies and distribution system in the campus

Waterbodies and their maintenance: Within the campus two bore wells are installed as follows
2HP, 350 ft. deep — 24 hrs. water availability.

1.5HP, 200 ft. deep----- 24 hrs. water availability.

Students are encouraged to use this water judiciously and minimize water wastage. There are 4 RO purifiers along with rainwater harvesting system and ground water storage system.

8. Water conservation: Rain water harvesting is employed to renew ground water level and to minimize use of other limited source of water. There are adequate trees in the campus, that help keep the water content in the soil at optimum level and prevents depletion of water bodies.
